

Everfresh dispenser

- 🐟 **Air freshener without propellants and batteries**
- 🐟 **Easy to install**
- 🐟 **Choice of four fresh scents**

The smell in toilet facilities plays a major part in whether they are perceived as clean. To meet the need for a solution that does not require batteries or use propellants, Vendor offers the Everfresh dispenser with scent strips: variable scents based on evaporation, that are easy to install, failure-free and offer a choice of various perfumes. Because the number of scent strips can be varied, the scent can be adapted to your situation.

- 100% recyclable plastic
- Evaporation-based air freshener
- Variable scent: use 1, 2 or 3 scent strips
- Failure-free
- All perfumes meet the IFRA (International Fragrance Association) standard
