

## Sanitiser

- 🐟 Prevents limescale deposits and bacterial growth
- 🐟 Environmentally friendly cleaning agent
- 🐟 Easy to refill

The sanitiser cleans your urinal with each flush and prevents limescale deposits and the growth of bacteria in the toilet. Using the sanitiser minimises the use of chemicals, such as chlorine, so it contributes to environmentally friendly maintenance of sanitary areas. Each sanitiser refill lasts approximately 3,100 flushes.

- Direct connection to the flushing line
- Made of durable ABS plastic
- 3,100 flushes
