

IQ Dispenser

- 🐟 **100% circular**
- 🐟 **Ideal for all (sanitary) facilities**
- 🐟 **Single dose is sufficient for one hand cleaning**

Meet the new generation of dispensers for hand cleaning. Its high capacity makes it ideal for all (sanitary) facilities. This guarantees that all your guests always have soap or foam at their disposal. The development took place on the basis of circularity: all the materials used can be used again as a raw material or be re-used. One pull on the dispenser provides users with the dose of soap or foam required for a hygienic cleaning of their hands. The optical consumption indicator saves the facilities service time.

- High capacity
- Dose can be manually adapted
- Economic continuous system
- Single pull technique
- Vandalism-proof
- Soaps (including foam) are biodegradable
- 100% recyclable bottles
- Can be quickly and easily refilled or topped up
- Optical consumption indicator

Create your IQ dispenser in 2 steps

1 Choice between a foam dispenser or a soap dispenser

Which fluid would best meet the cleaning needs of your guests? Foam and soap have the same function. In addition, the foam soaps look luxurious and improve the user experience in terms of the perceived comfort.

2 Pick your colour

Which colour do you prefer? The Alpine White and Metal version and the sophisticated Black Vision version of the IQ dispenser are deliverable from stock. In addition, the IQ dispenser comes in every desired RAL colour.*

- Alpine White
- Metal
- Black Vision
- Colours
